Support in access to public/private investors for companies

DESCRIPTION: Services orientated to support companies to access to public or private investors, such as public investment bodies (e.g. ENISA, CDTI, EBI) and/or private business angels, venture capital funds or CVC, in order to accelerate and reinforce their innovative business plans, through a technological, legal and financial analysis.

PROVIDERS:

Support in creation of new innovative companies

DESCRIPTION: Services to support technological entrepreneurs to create and accelerate new companies.

PROVIDERS:

Support in access to funding for Public Procurement of Innovation (PPI) for public bodies

DESCRIPTION: Services oriented to support public bodies (local or regional authorities) to access to specific funding for the implementation of Public Procurement of Innovation through technological, legal and financial analysis

PROVIDERS:

Support in access to public sources of funding

DESCRIPTION: Services orientated to support researchers to receive public funding to R&D&i activities, through a complete analysis of the proposal of these researchers, to link them with public institutions such as local authorities, Regional or Spanish Government or EC.

PROVIDERS:
